

KEUCO

MIRROR CABINETS

ROYAL MODULAR 2.0

Strength in flexibility

Extremely flexible dimensions, a variety of versions, and rectilinear design are what make ROYAL MODULAR 2.0 the mirror cabinet choice for every bathroom. It offers an individual choice of widths, heights and depths, and with its intelligent LED lighting concept, highly functional technology, adaptable storage space and clever detail features, it is a genuine all-rounder.

19 widths, 2 heights, 2 depths

ROYAL MODULAR 2.0 is available in numerous sizes, and with one, two, three or four doors it suits wash-basins and bathrooms of almost any size. It can be installed recessed in the wall to save space, or mounted on the wall as a design element. Its high quality aluminium body makes it unsusceptible to moisture and humidity, so it is especially long lasting. The premium mirrors on the outside and inside of the doors provide a clear reflection in every respect.

- DALI-controlled

Number and type of sockets
(depends on model):

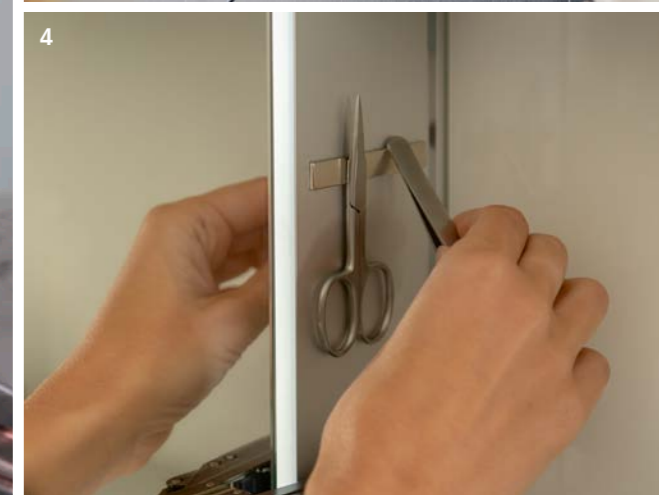

- Without
- With socket
- With socket & USB-double-charger

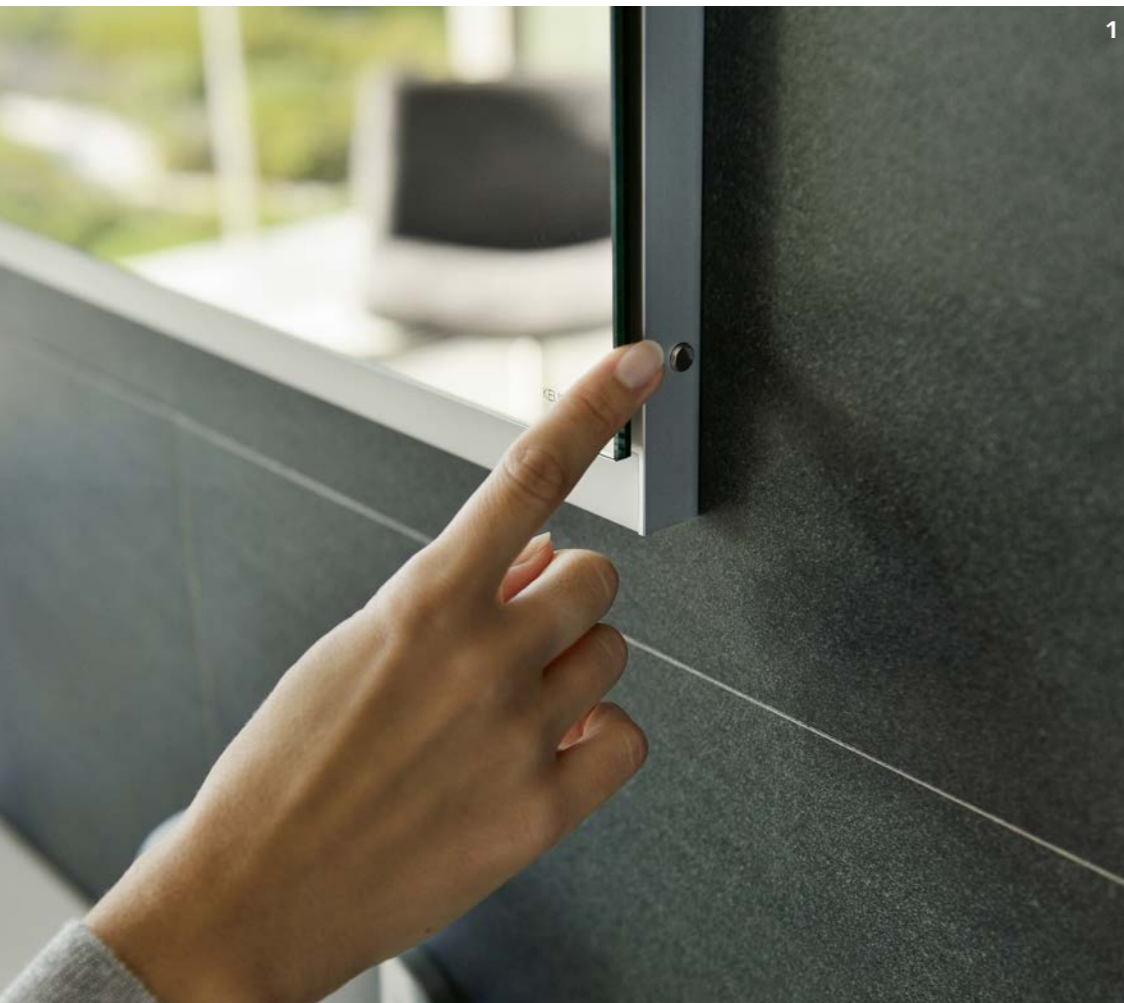

Interior features

Concealed inside is not only the sensor system to control the lights, but also an elegant, high-contrast design with individually organisable smoked glass shelves set against a white glass rear wall and doors mirrored both sides for all-round view. Practical features include a flexible cosmetic mirror and a magnetic strip to help organise small beauty aids. A special feature inside are the options for electric sockets and the double USB connection, concealed behind hinged cover plates.

- 1/2 Cosmetic mirror, removable (optional)
- 3 1, 2 or 4 sockets (alternatively USB-double-charger)
- 4 Magnetic strip for beauty aids

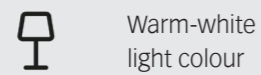

- 1 On/off switch on the side
- 2 Interior touch control panel for exact adjustment from 2700 kelvin (warm-white) for relaxing
- 3 to 6500 kelvin (daylight) for routine beauty care

Intelligent and beautiful

Functional touch panel

Warm-white light colour

Daylight light colour

Main lighting (bottom)

Main lighting (top)

On / Off

The horizontal LED lighting at the top and bottom can be controlled separately, providing full shadow and glare-free illumination of the face. At the same time, they also masterfully highlight the washing area. Overall, the light can be very finely adjusted in brightness and light colour to match the needs of the user.

To preserve the reduced and tidy appearance of the exterior, the sensors controlling the light are situated in the interior of the mirror cabinet. Hardly visible on the outside, there is a small button for switching on and off.

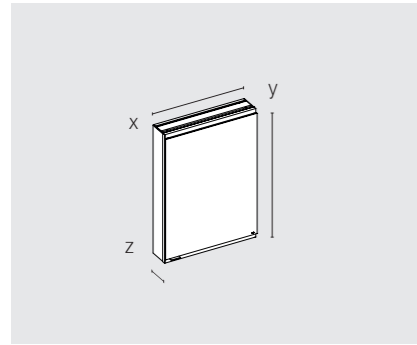

ROYAL MODULAR 2.0 TECHNICAL SPECIFICATIONS

Making a difference is what our product developments are all about. The difference can be found in the functionality. Or in the product design. Or better yet, in both – paired with excellent KEUCO quality.
